In the last few weeks have been some minor changes at the field. The fence on the far side of the strip has been repositioned to its correct place. Thanks to the help from Don and Dave McKenzie and Troy Scott and their gear as well as from Peter, John S, and Rory. Some work still needs to be done on the fence as the wire droppers need to be replaced. At a later date the fence from the original boundary on the road to the new boundary also will be replaced. The Pylon course has been surveyed and was pegged by Jason and his crew and

then with Don and Dave McKenzie's assistance and gear the holes were dug and plastic inserts concreted into the ground to support the pylons. Also thanks to the help from Peter, John S, and R ory. Both of these jobs were done on a Friday with limited people as the timing suited Don and his gear being available so no working Bee was organised.

Up and coming events.

With the late arrival of Propwash there have been a few events in the planning that all may not yet know about, in date order will be Pylon on 10/11th March. Four classes will be run, SS2 and F3D on Saturday and F400 and S1D on Sunday. Nick has been asked to organise the

catering. See Rory for more information. On the same weekend there is a Public Static Display at the Heritage Village 11th March. See John Stevens for more information. Craig and Rochelle have asked that the Club field be available for them to have their Wedding Reception on the Saturday 31st March. Kerry is in the throws of planning for the next Heli comp and this is to be on the 21/22nd April. The Terry Phillipson is happening 19/20th May with Scale (SOS Mammoth & ARF) 7 Cell, Old Timer and Combat as the events for the weekend

Terry Phillipson.

Terry Phillipson is on in May and the events that we will be running are:

Scale – Mammoth

Stand Off Scale

ARF

Old timer

7 Cell

Combat

So start preparing your models for the events that you want to enter into.

This was sent to me recently.

A man was flying from Seattle to San Francisco. Unexpectedly, the plane was diverted to Sacramento along the way. The flight attendant explained that there would be a delay, and if the passengers wanted to get off the aircraft the plane would re-board in 50 minutes.

Everybody got off the plane except one lady who was blind. The man had noticed her as he walked by and could tell the lady was blind because her Seeing Eye dog lay quietly underneath the seats in front of her throughout the entire flight.

He could also tell she had flown this very flight before because the pilot approached her, and calling her by name, said, "Kathy, we are in Sacramento for almost an hour. Would you like to get off and stretch your legs?" The blind lady replied, "No thanks, but maybe my dog would like to stretch his legs."

Picture this:

All the people in the gate area came to a complete standstill when they looked up and saw the pilot walk off the plane with a Seeing Eye dog! The pilot was even wearing sunglasses.

People scattered. They not only tried to change planes, but they were trying to change airlines!

True story....

Meeting Notes.

- There seems to be some concern for the Club mower and tractor as to how much service to expect and maintenance required, to keep them in good service, so some investigations are being done to either repair/upgrade/replace the gear
 - Members of the Club are looking into having an ash felt strip laid at the Rocky Field. Costs are expected to be high but may be covered by grants.
 - Thanks go to the members who make the time and effort to maintain the field, buildings & equipment.
-

David Georgeson.

The David Gerogeson competition was to be held on the 25th of February but due to low numbers it was decided to postpone the competition to a more suitable date. The 25th of March was preposed so as to keep it as close to the original date (and as soon as practible) and not interfere with the other activities that are happening. So if you enjoy your flying and want a bit of a challenge come along and join the rest of us and also just socialize with other members of the Club. The rules are the same as last year and any aircraft is eligible. Talk to Don McKenzie or Rory for any more information.

Propwash Editor.

The need for an editor for Propwash has arisen, so if you are interested in putting the Clubs information and activities together and keeping the other members informed then please let us know. This can be a temporary position till September or if really interested till whenever

The news room????
